Quotes and Notes

"If you asked me to describe the rising philosophy of the day, I'd say it is data-ism. We now have the ability to gather huge amounts of data. This ability seems to carry with it certain cultural assumptions – that everything that can be measured should be measured; that data is a transparent and reliable lens that allows us to filter out emotionalism and ideology; that data will help us do remarkable things – like foretell the future."

- David Brooks

"There will come a time when the generality of mankind, both Jew and Gentile, shall come to Jesus Christ. He hath had but little takings of the world yet, but he will have before he hath done."

- Thomas Goodwin, 17th c. Puritan
